Mary Hudson: What I'd like to do is if I could ask some of you people, I know you've maybe read the agenda about starting a community watch, neighborhood watch, and if I could just ask you to please, on at a time, voice your concerns and why you're here. Start with Mr. Welsh.

Doug Walsh: I just moved here not too long ago. I moved into Wagoman's and I am really here to listen. I saw it in the paper and it sounded like of interested so I thought I'd come over and give me a call back.

Mary Hudson: Okay, what we were doing was asking each of you to give us an idea of your concerns and why you are here and just briefly state your name and what you are really concerned about for the future of our Town for the safety and security. Then we'll turn it over to Chief Phillips to give us some more information.

Lynn Ecklund (406 Union St.): I am here because I am very interested in a community watch program.

Kath
