

## Streets and Sidewalks Committee

Report 7/7/14

Streets and Sidewalks Committee has not met in several months, but anticipates meeting in July to formulate recommendations to be forwarded to our State Legislators for Community Transportation Funding consideration.

The Town of Milton received approximately 41000 dollars for FY 14 from our State Legislators for patching on State Maintained Roads in Milton. Milton was obligated by agreement to cover the costs of repairs caused by utility (water) repairs.

An amendment to ordinances regarding the repair and maintenance of public sidewalks, Chapter 183 was forwarded to Town Council and is currently under review for passage.

Respectfully,

Electronically Signed

John R. Collier

Chairman
