RESOLUTION 2023-020

**TO REQUEST THAT DELDOT INSTALL A FOLDABLE "WATER ON ROADWAY" SIGN
FOR USE BY TOWN STAFF**

WHEREAS, the Charter of the Town of Milton vests power in the Mayor and Town Council to provide for and preserve the health, peace, safety, cleanliness, ornament, good order and public welfare of the Town and its inhabitants; and

WHEREAS, when there is flooding on Front Street and Union Street, road closure signage for flooding is currently placed within town limits.

WHEREAS, drivers head into town from Cave Neck Road to Front Street and at that point drivers discover that they cannot proceed and must reroute. For larger truck traffic there is nowhere to turn around. Freight vehicle drivers then enter streets that are too narrow to accommodate their truck size. These streets include, but are not limited to: Collins Street, Walnut Street, and Mill Street.; and

WHEREAS, Cave Neck Road is a DelDOT maintained roadway where flood signage would be most readily viewed by drivers, at a point where they could reroute.

NOW, THEREFORE, BE IT RESOLVED that the Mayor and Town Council of Milton hereby respectfully request that the Delaware Department of Transportation install a foldable "Water on Roadway" sign with permanent posts on Cave Neck Road near Front Street that would be activated (folded/unfolded) by Town of Milton staff when flood conditions are present.

I, **Scotty Le Edler**, Secretary of the Town Council of the Town of Milton do hereby certify that the above resolution was passed at the meeting of the Town Council, duly called and convened, held on the 6th day of November 2023, at which a quorum was present and voting throughout and that same is still in full force and effect.

TOWN OF MILTON

BY: 

SECRETARY OF TOWN COUNCIL

DATE: 11/07/2023

SYNOPSIS

This Resolution requests that DeIDOT place a foldable "Water on Roadway" sign on Cave Neck Road near Front Street. The Town of Milton and DeIDOT would need to enter a Right of Way Use Agreement to allow Town staff to operate this signage. Signage is to be compliant with the (DE MUTCD) Delaware Manual on Uniform Traffic Control Devices.
